Section 27.83, Title 14, CCR, is amended to read:

### **27.83. California Rockfish Conservation Area.**

~~California Rockfish Conservation Area (CRCA) means all ocean waters which are closed at specified times, or closed in specified depths and areas to recreational fishing for rockfish, lingcod, and associated species (limited to cabezon, greenlings of the genus *Hexagrammos*, California scorpionfish, California sheephead, and ocean whitefish) pursuant to Section 27.82, including waters of the Cowcod Conservation Areas (CCAs) defined in Section 27.82(d). Restrictions on the use of fishing gear in the CRCA and CCAs as specified in this regulation serve to minimize interaction with these species.~~

~~(a) Species Restrictions. All species of rockfish (*Sebastes* spp.), lingcod, and associated species (limited to cabezon, greenlings of the genus *Hexagrammos*, California scorpionfish, California sheephead, and ocean whitefish) may not be taken or possessed in the CRCA or CCAs, except that these species may be possessed aboard vessels transiting the CRCA or CCAs with no fishing gear in the water.~~

~~(b) Definitions.~~

~~(1) Highly migratory species are defined pursuant to Section 1.49, Title 14, CCR.~~

- ~~(2) Coastal pelagic species are defined pursuant to Section 1.39, Title 14, CCR.~~
- ~~(3) Salmon are defined pursuant to Section 1.73, Title 14, CCR.~~
- ~~(4) Squid jig means: a multi-pronged barbless hook with a 2-3 inch long, 1/4 to 3/4 inch thick, sometimes brightly colored shank commonly used to catch coastal pelagic species.~~
- ~~(5) Downrigger means: a device used to deploy one or more fishing lines (via a spool, davit, main line, and terminal weight) each with a terminal hook or lure to a desired depth in the water column and that uses a clip to hold each fishing line in place until a fish takes the terminal hook or lure at which time the fishing line pulls free of the clip.~~
- ~~(6) No. 2 hook means: a fishing hook with a gap between the hook point and the shank at its closest point of 7/16 inch.~~
- ~~(c) Gear restrictions. Except as provided in subsection (d) below, the following fishing gear types or sizes are prohibited for use or possession aboard any vessel with one or more persons aboard taking fish under authority of a sport fishing license except that possession is allowed if the vessel is underway or transiting the CRCA or CCAs with no gear in the water: all types of hook and line gear with more than one hook or lure and more than 6 ounces of weight are attached to each other by a common line.~~
- ~~(d) Gear type and species exceptions as they apply to the CRCA and CCAs are as follows:~~
- ~~(1) When fishing for salmon, see Sections 27.80 and 28.65, Title 14, CCR.~~
- ~~(2) An additional hook (sliding or fixed) and downriggers with up to 5 pounds of weight may be used when trolling for species other than salmon.~~
- ~~(3) Up to 2 hooks and up to 1 pound of weight may be used when drifting for highly migratory species, California halibut (*Paralichthys californicus*), or yellowtail (*Seriola lalandi*).~~
- ~~(4) Up to 12 No. 2 or smaller hooks and up to 2 pounds of weight may be used when fishing for sanddabs or coastal pelagic species.~~
- ~~(5) There is no limit of the number of squid jigs that may be used on a line.~~
- California Rockfish Conservation Area (CRCA) means the ocean waters that are closed to recreational groundfish fishing at specified times, or closed in specified depths or areas. Restrictions on the use of fishing gear in the CRCA and Cowcod Conservation Areas (CCAs, defined in subsection 27.82(d)) serve to minimize interaction with groundfish and associated species when fishing for non-groundfish species. Restrictions described in this Section do not apply to vessels transiting the CRCA or CCAs with no fishing gear deployed in the water.
- (a) Species Restrictions. Unless specifically authorized in subsections 27.82(c) or (d), no species of federal groundfish (as defined in Section 1.91 including rockfish, cabezon, lingcod, and California scorpionfish), greenlings of the genus *Hexagrammos*, California sheephead, or ocean whitefish may be targeted, taken, or possessed in the CRCA or CCAs.
- (b) Gear restrictions. When fishing in the CRCA and CCAs, not more than one hook or more than six ounces of weight may be used on a single line, except as provided:

- (1) Salmon (as defined in Section 1.73) – fishing for salmon is subject to gear restrictions specified in Sections 27.80 and 28.65.
- (2) Coastal pelagic species (as defined in Section 1.39) - Up to 12 No. 2 or smaller hooks and up to 2 pounds of weight may be used when fishing for coastal pelagic species. When fishing for squid, there is no limit of the number of squid jigs that may be used on a single line. A No. 2 hook means a fishing hook with a gap between the hook point and the shank at its closest point of 7/16 inch. A squid jig means a multi-pronged barbless hook with a 2-3 inch long, 1/4 to 3/4 inch thick, sometimes brightly-colored shank commonly used to catch coastal pelagic species.
- (3) Highly migratory species (as defined in Section 1.49), California halibut (*Paralichthys californicus*), and yellowtail (*Seriola lalandi*) - Up to 2 hooks and up to 1 pound of weight may be used when drifting for these species.
- (4) Sanddabs and federal groundfish that are other flatfish (as defined in subsection 1.91(a)(10)) - Up to 12 No. 2 or smaller hooks and up to 2 pounds of weight may be used when fishing for these species. A No. 2 hook means a fishing hook with a gap between the hook point and the shank at its closest point of 7/16 inch.
- (5) An additional hook (sliding or fixed) and downriggers with up to 5 pounds of weight may be used when trolling for species other than salmon. A downrigger means a device used to deploy one or more fishing lines (via a spool, davit, main line, and terminal weight) each with a terminal hook or lure to a desired depth in the water column and that uses a clip to hold each fishing line in place until a fish takes the terminal hook or lure at which time the fishing line pulls free of the clip.
- (6) When fishing in the CRCA from shore under authority of subsection 27.82(c)(3), the gear requirements of this subsection do not apply.
- (c) Spearfishing (as defined in Section 1.76). When spearfishing for groundfish and associated species in the CRCA under authority of subsection 27.82(c)(4), gear requirements of that subsection apply. If spearfishing for non-groundfish species, no special gear requirements apply.
